3 June 2011

Dear friends and colleagues,

Re: Invitation to "Clinical Information on Radiation and Radiation Protection Symposium: From Evidence to Actions" of 5th Congress of Asian Society of Cardiovascular Imaging (ASCI 2011), 17 June 2011

On behalf of the Organizing Committee of ASCI 2011, I have great pleasure in inviting you and members of your organization to the **Clinical Information on Radiation and Radiation Protection Symposium: From Evidence to Actions**. The Symposium will be held in the afternoon of 17th June, 2011 (Friday) at the Hong Kong Convention and Exhibition Centre.

The Symposium will consist of two sessions:

Lectures (2:00pm – 4:40pm)

As one of the highlights of the ASCI 2011, the Symposium will focus on the hot topics of risks, benefits and safety of medical radiation. Distinguished international and regional faculties will deliver important lectures on different facets of radiation protection. The lectures aim not only to share medical knowledge, but also to enhance the general awareness of radiation protection in the profession. Please find the programme of the Symposium at the Congress website of ASCI 2011: <http://www.asci2011.org>. The registration fee for the Symposium is HK\$200.

Forum and Panel Discussion (4:40pm – 5:40pm)

As a service to professionals from different disciplines and to the public, the Symposium will present a one-hour Forum at the end of the afternoon. This session will be conducted in Cantonese with contents tailored for professionals, healthcare workers and universities students who are interested in this topic. With the widespread application of medical radiation, students and staff of your organization will no doubt also find radiation protection relevant and important to their work. **This one-hour Forum is free and pre-registration is required.** Requests will be attended on a first-come, first-served basis. For interested participants, please provide full name, name of institution, e-mail address and the first four digits of ID Card for pre-registration via the following website: <http://www.asci2011.org>. Successful registrants will be notified by email.

We look forward to seeing you at the "Clinical Information on Radiation and Radiation Protection Symposium: From Evidence to Actions"!

Yours sincerely,

Dr. Stephen Cheung
Congress Secretary, ASCI 2011
