## **Response to Policy Address**

The Hong Kong College of Community Medicine welcomed the 2022 Policy Address delivered by the Chief Executive on October 19. The healthcare initiatives outlined in the Policy Address shall drive primary healthcare development forward and towards sustainable development of healthcare system. We fully support the direction of using preventive services to further improve the health of our population. The College appreciates the efforts of the Government, the medical and health sector and all stakeholders to promote and safeguard community health.
