

香港社會醫學學院
HONG KONG COLLEGE OF COMMUNITY MEDICINE
founder College of the Hong Kong Academy of Medicine
Incorporated with limited liability

Public Statement

The Hong Kong College of Community Medicine welcomes the enforcement of the Smoking (Public Health) (Amendment) Ordinance 2021 today. This is an important development to safeguard the Hong Kong population against the deleterious health effects of alternative tobacco products, including electronic cigarettes and heat-not-burn tobacco products. The College appreciates the efforts of the Government, the medical and health sector and all stakeholders who support the bill.
